

ECONOMICS - ASSET MANAGEMENT CONCENTRATION (B.A.)

Majoring in **Economics with a concentration in Asset Management** is a unique opportunity for students to combine economics with finance tools and become analytically and technically prepared for a career in asset management or a related field. This interdisciplinary concentration is provided in collaboration with the Accounting and Finance Department. This program is ideal for students who are mainly interested in learning the fundamentals of economics but wish to also gain training in finance. Students will develop analytical skills by creating models that link numerous economic factors with fair value, risk and returns, and the financing of various assets.

The program is flexible in terms of opting in and out of the concentration and completing the standard economics major without any delay in degree completion.

Economics majors with an Asset Management concentration pursue careers in:

- Finance and banking
- Consulting
- Private and Public sectors
- Non-profit organizations
- Graduate studies or law school

Admission Criteria:

Economics Major GPA – 2.5, if transferring from Economics Major to this program

Overall GPA – 2.5, if entering/transferring from any other program

120 credits of coursework is required for the baccalaureate degree with a minimum 2.0 overall GPA, and a minimum 2.0 major GPA.

Degree Requirements Overview

Code	Title	Credits
New Student Seminar		1
SEEDS General Education Requirements		21-24
Major Requirements		51
Free Electives		47-44
Total Credits		120
